

In Attendance

Natalie Ratliff John Larson
Dr. Marcia Jones Mary Ellen Wilkinson
Lee Fisher

Approval of Minutes

The minutes from August 2015 were approved by John Larson and Lee Fisher.

Discussion

The meeting was started at 1235 by Natalie Ratliff. Dr. Marcia Jones was introduced as our new chair of the IRB. Her role was discussed briefly.

The annual meeting is to renew the Jostent Heroic device used in the CGH cath lab. A brief overview of the device was given, as well as its use in the last year and the outcome for the patient. Dr. Marcia Jones signed the annual letter renewing the device for the 2016-2017 year.

Fecal transplant studies were also discussed and several questions were asked of the demographics and median age. Natalie will ask those involved in the fecal transplant studies and let the committee know of the answers received.

No new studies were discussed. No updates on the CPAP study requested by Dr. Grazulis.

The meeting ended at 1250 with adjournment.

Next Meeting

Our next meeting is tentatively scheduled for August 16, 2016.
